Professional Summary

Software Developer with 1+ year of experience in mobile development, specialising in **React Native and Flutter** for cross-platform Lottery and iGaming applications. Skilled in building scalable UI, integrating REST APIs and payment gateways, and delivering reliable Android/iOS apps with **ReactJS** for web.

Key Skills

Mobile: React Native, Flutter, Dart, Android Development, Expo
Frontend: React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS
Backend/API: REST APIs, Payment Gateway Integration (Coinflow, OPay)
Tools: Git, GitHub, VS Code, Android Studio, Xcode, Postman
AI Tools: Claude, GitHub Copilot – used for code review, debugging, and workflow optimisation

Professional Experience

Skilrock Technologies

Software Developer

May 2025 – Present

Gurugram, India

- Developing and maintaining cross-platform mobile applications using **React Native** and **Flutter** for large-scale Lottery and iGaming platforms.
- Integrating REST APIs and payment gateways (Coinflow, OPay), and implementing authentication, navigation, and real-time draw/result workflows.
- Building scalable, reusable UI components and modular frontend architectures to improve maintainability and user experience across apps.
- Implementing state management and offline functionality to ensure reliable app behaviour under poor or intermittent network conditions.
- Debugging deeplink navigation, race conditions, and UI rendering issues across production Flutter and React Native codebases.
- Collaborating with cross-functional teams in an Agile environment, participating in code reviews and using AI tools (Claude) to speed up debugging and optimisation.

Projects

Lineleanz – Gaming & Sports Betting Platform

React Native, TypeScript, REST APIs, Coinflow

Sep 2025 – Present

- Built a US-based gaming and sports betting app with **React Native** for Android and iOS, integrating multiple betting/gaming providers with secure authentication and push notifications.
- Implemented deposit and withdrawal flows via Coinflow with offline/network-handling for reliability during connectivity drops.

Lottomania – Nigeria Lottery Platform

Flutter, Dart, REST APIs

July 2025 – March 2026

- Built a **Flutter**-based mobile lottery ecosystem covering Lottery, Instant Win, and SportsPool modules for a Nigeria-based client.
- Debugged banner deeplink navigation (race condition) and fixed carousel UI rendering/loading-state bugs across devices.

FundingChange – Digital Raffle Platform

Flutter, Dart, REST APIs

Nov 2025 – Ongoing

- Contributing to a **Flutter**-based raffle platform for a Canada-based client, assisting with secure ticket allocation and winner-selection logic.
- Built concurrent-safe REST APIs with atomic transactions and compliance-ready payment workflows.

Education

Ajay Kumar Garg Engineering College

Bachelor of Technology in Computer Science and Engineering

Aug 2021 – May 2025

SGPA: 8.1
