Professional Summary

Results-driven Software Developer with 1+ year of experience in Mobile and Web Application Development, specialising in React Native and Android. Skilled in building scalable, user-friendly applications with a focus on performance, reliability, and exceptional user experience.

Professional Experience

Skilrock Technologies

Software Developer

May 2025 – Present

Gurugram, India

- Developing and maintaining cross-platform mobile applications using React Native and modern TypeScript.
- Building scalable, reusable UI components to enhance maintainability and user experience.
- Integrating REST APIs and third-party services for seamless backend communication.
- Implementing authentication, navigation flows, state management, and offline functionality.

Projects

Lineleanz – Gaming & Sports Betting Platform

React Native, TypeScript, REST APIs, Coinflow

Sep 2025 – Present

- Contributed to a US-based gaming and sports betting platform built with React Native for Android and iOS.
- Integrated multiple third-party betting/gaming providers and implemented secure authentication flows.
- Built push notifications delivering real-time betting alerts, promotions, and transaction updates.
- Developed robust offline/network-handling mechanisms, improving reliability during connectivity drops.
- Implemented deposit and withdrawal flows via Coinflow payment integration.
- Optimised performance through efficient state management and reusable component architecture.
- Collaborated with backend developers, QA, PMs, and designers in an Agile environment.

Cloud-IoT Healthcare System

Cloud Computing, IoT, Arduino, iFogSim

Jan 2024 – May 2024

- Designed a Cloud-IoT healthcare architecture incorporating a Fog Computing layer, reducing network latency and bandwidth compared to traditional Cloud-IoT setups.
- Simulated system performance with iFogSim; validated improvements using Arduino, ESP modules, and sensors.

Real-Time Chat Application

Jun 2024 – Sep 2024

React.js, Firebase, JavaScript

- Developed a real-time chat app with instant messaging, multimedia sharing, typing indicators, and read receipts.
- Integrated Firebase Authentication and Realtime Database; designed a fully responsive UI.

Education

Ajay Kumar Garg Engineering College

Aug 2021 – May 2025

Bachelor of Technology in Computer Science and Engineering

SGPA: 8.1

Technical Skills

Mobile:	React Native, Android Development, Expo
Frontend:	React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS
Backend/DB:	Firebase, MongoDB, MySQL, REST APIs
Languages:	JavaScript, TypeScript, Python, C++, Java
Tools:	Git, GitHub, VS Code, Android Studio, Xcode, Postman
Practices:	Agile, Code Review, Debugging, Performance Optimisation

Core Competencies

- | | |
|---------------------------------------|-------------------------------|
| • Mobile & Cross-Platform Development | • Performance Optimisation |
| • React Native Development | • Agile Development |
| • REST API Integration | • Problem Solving & Debugging |
| • State Management | • Team Collaboration |
| • UI/UX Implementation | • Software Design Principles |

Honours and Certifications

- **1st Runner-Up** – National Technical Paper Presentation (SCROLL 2023)
- Open Source Contributor – Hacktoberfest 2022
- Contributor – GirlsScript Summer of Code 2024
- React Fundamentals – Infosys Springboard
- Enhancing Soft Skills and Personality – NPTEL
- Cisco Introduction to Cybersecurity
